

Positive, Proactive Approaches to Supporting Children With Disabilities

Personnel Preparation to Address Social, Emotional, and Behavioral Needs

Overview

Public early childhood programs, elementary, and secondary schools are responsible for meeting the needs of children with disabilities, which includes addressing their social, emotional, and behavioral needs. Far too often, positive and proactive approaches that focus on preventing interfering behavior are not part of a child's individualized education program (IEP). As a result, children with disabilities—particularly children with disabilities of color—are frequently subjected to exclusionary discipline, which removes them from their learning environment without focusing on how to best meet their unique behavioral needs. Schools and early childhood programs must understand how to protect the rights and needs of children with disabilities to ensure their disability-based behaviors are understood and that their IEPs are appropriately developed and effectively implemented to enable social, emotional, and academic success.

In July 2022, the U.S. Department of Education, Office of Special Education Programs (OSEP), published the guide [*Positive, Proactive Approaches to Addressing the Needs of Children with Disabilities: A Guide for Stakeholders*](#), which provides actions state educational agencies (SEAs), local educational agencies (LEAs), schools, early childhood programs, and educators can take to implement positive, proactive, and preventative practices that seek to better address a child's behavioral needs while decreasing the use of exclusionary discipline. These practices reinforce core pillars of the Individuals with Disabilities Education Act (IDEA), including how addressing the behavioral needs of children with disabilities is part of IDEA's requirement to provide a free appropriate public education (FAPE) provided in the least restrictive environment (LRE), and the IEP as the vehicle for fulfilling this obligation. By implementing practices associated with these positive and proactive approaches, students with disabilities can be assured of access to an educational environment that is nondiscriminatory, supportive, positive, and nurturing for both their academic and behavioral development.

OSEP Technical Assistance (TA) Center Resources

The resources in the following tables can support schools and early childhood programs in implementing positive, proactive approaches to support and respond to children's behavioral needs more effectively. Following the resources is information about OSEP TA Centers that can provide additional information to support schools in implementing the practices described below.

SCHOOL- AND CLASSROOM-BASED PRACTICES

Resource	Description	Audience	Reference Citation
Behavior Support for Intensive Intervention	The National Center on Intensive Intervention (NCII), through a collaboration with the University of Connecticut and the National Center on Leadership in Intensive Intervention and with support from the CEEDAR Center and Center on Positive Behavioral Interventions and Supports (PBIS), developed course content focused on enhancing educators' skills in behavior support for intensive intervention. The course includes eight modules that can support faculty and professional development providers with instructing pre-service and in-service educators' knowledge of behavioral theory and skills in designing and delivering effective behavioral supports for students with intensive needs.	<ul style="list-style-type: none"> • Educators • School administrators 	National Center on Intensive Intervention. (n.d.). <i>Behavior support for intensive intervention</i> . https://intensiveintervention.org/training/course-content/behavior-support-intensive-intervention
Family Engagement: Collaborating with Families of Students With Disabilities	This self-paced module addresses the importance of engaging the families of students with disabilities in their child's education. It highlights some of the key factors that affect these families and outlines some practical ways to build relationships and create opportunities for involvement.	<ul style="list-style-type: none"> • Educators • Local and district agencies • State and regional agencies 	IRIS Center. (2022). <i>Family engagement: Collaborating with families of students with disabilities</i> . https://iris.peabody.vanderbilt.edu/module/fam
PI #2: Back to School Positive Behavior Strategies	To support educators who are returning to in-person instruction this school year, the TIES Center is refreshing selected articles from the distance learning series.	<ul style="list-style-type: none"> • Educators • School administrators 	McQuaid, P. CULTURALLY AND LINGUISTICALLY RESPONSIVE PRACTICES

Resource	Description	Audience	Reference Citation
Classroom Diversity: An Introduction to Student Differences	This self-paced module offers a broad overview of how diversity (i.e., culture, language, exceptionality, and socioeconomic status) affects learning and how teachers can better meet the needs of all their students in their classes.	<ul style="list-style-type: none"> • Educators • Local and district agencies • State and regional agencies 	IRIS Center. (2022). Classroom diversity: An introduction to <i>student differences</i> . https://iris.peabody.vanderbilt.edu/module/div
Cultural and Linguistic Differences: What Teachers Should Know	This self-paced module examines the ways in which culture influences the daily interactions that occur across all classrooms and provides practice for enhancing culturally responsive teaching.	<ul style="list-style-type: none"> • Educators • Local and district agencies • State and regional agencies 	IRIS Center. (2022). Cultural and linguistic differences: <i>What teachers should know</i> . https://iris.peabody.vanderbilt.edu/module/clde
Dual Language Learners With Disabilities: Supporting Young Children in the Classroom	This self-paced module offers an overview of young children who are dual-language learners. Further, it highlights the importance of maintaining children and families' home language at the same time they are learning a new or second language, discusses considerations for screening and assessing these children, and identifies strategies for supporting them in inclusive preschool classrooms.	<ul style="list-style-type: none"> • Educators • Local and district agencies • State and regional agencies 	IRIS Center. (2022). Dual language learners with disabilities: <i>Supporting young children in the classroom</i> . https://iris.peabody.vanderbilt.edu/module/dll
Teaching English Language Learners: Effective Instructional Practices	This self-paced module helps teachers understand second language acquisition, the importance of academic English, and instructional practices that will enhance learning for English Learners.	<ul style="list-style-type: none"> • Educators • Local and district agencies • State and regional agencies 	IRIS Center. (2022). Teaching English language learners: <i>Effective instructional practices</i> . https://iris.peabody.vanderbilt.edu/module/ell

OSEP TA Centers

- **Center for Parent Information and Resources (CPIR)** | CPIR provides universal technical assistance to the network of Parent Centers funded by OSEP. Among its priorities are: (a) providing Parent Centers with products and materials to support their work with families; (b) increasing Parent Centers' knowledge and capacity in specific domains; and (c) increasing the coordination of parent training efforts throughout the network. Among the products and services CPIR provides to the Parent Center network are: (a) its information-rich website in English and Spanish (called the Parent Center Hub); (b) a twice-monthly newsletter called the *Buzz from the Hub*; (c) the eLearning Hub, which features online, self-paced learning modules for all Parent Center staff as part of capacity building; (d) frequent webinars on high-priority topics; (e) national Parent Center capacity-building conferences; (f) private communication spaces where Parent Centers can share resources and collaborate with their colleagues (CentersConnect); and (g) coordination of annual data collection and reporting of Parent Center activities, training contacts, and services provided to families, professionals, and youth with disabilities.

Center on Positive Behavioral Interventions and Supports (PBIS) | The Center on PBIS was initially funded in 1998 and a new 5-year funding cycle launched in October 2018. The purpose of the new center is to improve the capacity of state educational agencies, LEAs, and schools to establish, scale up, and sustain the PBIS framework to (a) scale up Tier 2 and 3 systems to improve outcomes for students with or at-risk for disabilities, (b) enhance school climate and school safety, and (c) improve conditions for learning to promote the well-being of all students. The Center on PBIS is grounded in the values of comprehensive prevention, based on human-centered science, and implemented through collaborative partnerships, centered in equity, to improve social, emotional, behavioral, and academic outcomes.

<https://www.pbis.org>

- **IDEA Data Center (IDC)** | IDC provides TA to build the capacity of states and LEAs to collect, report, analyze, and use high-quality IDEA Part B data. IDC offers a full range of services and resources to support states' efforts to submit 616 (State Performance Plans and Annual Performance Reports or SPP/APR) data and 618 (or *EDFacts*) data that meet the U.S. Department of Education's data quality standards for accuracy, timeliness, and completeness. IDC also partners with States and LEAs to help them use these data to identify programmatic strengths as well as areas for improvement, including addressing root causes of poor performance and evaluating progress toward goals and desired outcomes.

- **IRIS Center** | The IRIS Center develops and disseminates free, engaging online resources about evidence-based instructional and behavioral practices to support the education of all students, particularly struggling learners and those with disabilities. These resources, designed to bridge the research-to-practice gap, are intended for use in college teacher preparation programs, in professional development (PD) activities for practicing professionals, and by independent learners. The array of IRIS resources includes modules, case studies, fundamental skill sheets, information briefs, course/PD activities, a high-leverage practices alignment tool, and an online glossary of disability-related terms.

- **National Center on Intensive Intervention (NCII)** | NCII is housed at the American Institutes for Research and works in conjunction with many of our nation's most distinguished data-based individualization (DBI) experts. The mission of the NCII is to build knowledge and capacity of state and local leaders, faculty and professional

development providers, educators, and other stakeholders to support implementation of intensive intervention for students with severe and persistent learning and/or social, emotional, or behavioral needs using DBI.

<https://intensiveintervention.org>

- **National Center for Pyramid Model Innovations** | The mission of NCPMI is to improve and support the capacity of state systems and local programs to implement an early childhood multi-tiered system of support to improve the social, emotional, and behavioral outcomes of young children with, and at risk for, developmental disabilities or delays. The goals of the center are to assist states and programs in their implementation of sustainable systems for the implementation of the Pyramid Model for Promoting Social Emotional Competence in Infants and Young Children (Pyramid Model) within early intervention and early education programs, with a focus on promoting the social, emotional, and behavioral outcomes of young children birth to five, reducing the use of inappropriate discipline practices, promoting family engagement, using data for decision-making, integrating early childhood and infant mental health consultation and fostering inclusion.
