Introductions

Our mission is to share information, networks, and strategies to improve continuing education and training for deaf people.

Carrie Lou Bloom: Co-Director
Tia Ivanko: Co-Director

Strengthening Technical Assistance

Priorities:

- Centering deaf experiences in the work
- Supporting sustainable changes
- Aligning TA with equity focused work across organizations
- Meeting people where they are

Core Message

Deaf people are not the problem, rather it is our systems

Shifting Practice

Access, equity, and inclusion efforts are complex issues that require complex solutions.

(Golom, 2018; Teemant et al., 2021)

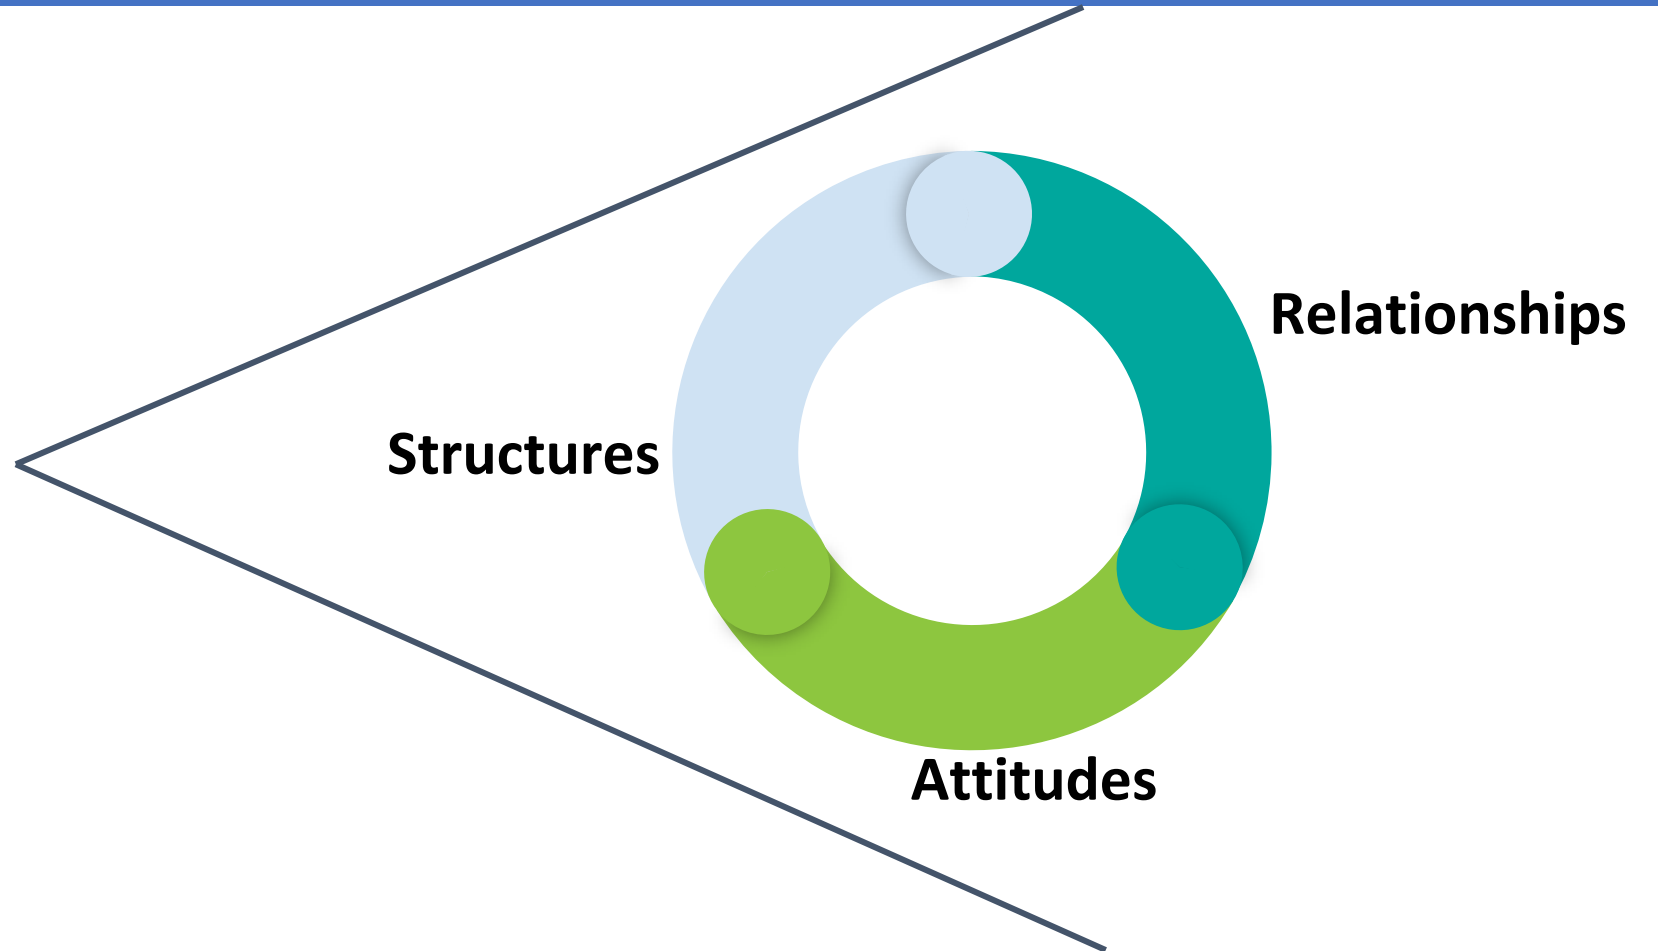

Systems Transformation Framework

Kania et al., 2018

Shifting Perspectives... Still a work in progress

Equity Mindset

An equity mindset sees inequitable outcomes as a “problem of practice rather than a problem with students,” emphasizing institutional responsibility to eliminate educational and employment disparities for marginalized students.

Malcom-Piqueux & Bensimon, 2017, p. 6

Developing an Equity Mindset

- facilitating opportunities for critical self-reflection
- raising expectations
- increasing the use of disaggregated data
- increasing awareness of structural inequities

Critical Self-Reflection

Self-Assessment Questions

- Leadership has shown a commitment to improving outcomes for deaf people of color and those who are deafdisabled, deafblind, and/or LGBTQIA+
- Professional development opportunities related to equity are available and sustained over time.
- Organizational data is used to identify barriers and improve equity in distribution of resources and services for deaf people.
- Leadership and personnel believe that systems need to be changed, not deaf people.

Raising Expectations

“...believing in deaf individuals’ capability to succeed and not viewing their opportunities as limited because they are deaf.”

Use of Disaggregated Data

Deaf Postsecondary Data from the American Community Survey (2021)

- Political limitations
- Organizational & individual readiness
- Organizational & individual bandwidth
- Finding existing or solid models
- Maintaining long-term focus on the ROI & benefits

Audience Dialog: Equity-Practices In Your Work

1. What frameworks are you using to guide your equity-centered practices?
2. How are you integrating equity-mindset practices into your technical assistance?
3. What challenges are you facing?
4. What opportunities have you leveraged for successful outcomes related to equity-mindset work?

Thank You
