FFY 2020 – 2025
SPP/APR HIGHLIGHTS
Assessment Flexibilities: FFY 2020 SPP/APR Reporting

- OSEP collaboration with OESE
- Technical assistance on expectations for FFY 2020 SPP/APR reporting
- Engagement between State Directors and Data Managers
Diverse stakeholders

- Expanding stakeholder groups
- Aligning stakeholder demographics to reflect the demographics of families and communities.
- Increased family representation
Continuous Engagement

Engagement must be active and spans the entire six years of reporting and incorporating various methods and timeframes to obtain stakeholder input.

- **Networked**: exchanged/shared information between the state and stakeholders
- **Collaborated**: engaged/worked together on the issue over time
- **Transformed**: committed/approached issues through shared ownership of the issue and consensus building
Partnering with Parent Centers

OSEP Parent Centers

- Trusted sources of information for families
- Represent many families
- Build family leadership capacity
- Build professional capacity to engage with families
- Support State activities

Parent Centers support States by:

- Serving on SAPs, ICCs, and SPP/APR groups
- Providing support and training to members of SAPs, ICCs, and SPP/APR groups
- Administering and analyzing family surveys
- Co-developing and reviewing content for families
States are strongly encouraged to provide detailed narratives that include, but is not limited to:

- Engagement Best Practices
- Diversity
- Representative of Families Served
- Identification of Inequities
- Frequency & Methods of Engagement
- Gather or Share Information
Consider these Questions:

- What data are available to describe the work that was done and the stakeholders who were involved?
- How did we determine which stakeholders were involved in different components of the work?
- Was the stakeholder engagement meaningful, and how did we know?
- What was the Intention for specific engagement?
  - How did we convey this in our report?
- Where are the direct and specific connections to our overall work?
  - Do we need to break it down more specifically for different indicators to be more effective?
More Questions for your Consideration

- How might we have various stakeholder groups focusing on specific components of the SPP/APR who are more directly invested in the involvement of those individual outcomes?

- How are our State’s SPP/APR outcomes demonstrating inequities within the intersectionality of race/ethnicity and wealth, geography, health?
  - Who should we engage to support change in these outcomes?

- What does our data say about who is missing from the decision-making tables, especially families?
  - How can we engage their voices in meaningful ways that lead to better outcomes for infants, toddlers, students, and families of color who historically and currently are most marginalized?
