

UNIVERSAL DESIGN FOR LEARNING MATERIALS

These materials were identified to augment the Tool Kit on Teaching and Assessing Students with Disabilities. They offer a collection of resources on Universal Design for Learning (UDL) that expands two of the substantive areas addressed in the initial release of the Tool Kit, including assessment and instructional practices. This additional information will help policymakers, educators, and parents identify and implement policies and practices related to UDL.

This tool kit contains resources created by a variety of organizations. These resources are provided for the user's convenience, and inclusion does not constitute an endorsement by the U.S. Department of Education of any views, products or services offered or expressed.

This document was produced under U.S. Department of Education Contract No. EDO4CO0025/0002 with the American Institutes for Research. Renee Bradley served as the contracting officer's representative. No official endorsement by the U.S. Department of Education of any product, commodity, service or enterprise mentioned in this resource or on Web sites referred to in this resource is intended or should be inferred.
